Our editors self-research, test, and recommend the best products; You can find out more about our review process here. We may receive commissions for purchases made on selected links. What we like about the great monthly cycle is the 500 capacity page to four user profiles What we don't like about the frequent paper cark reports on DOA units Reports problems with black ink cartridges Are you looking for a printer to handle large monthly workloads in the office to upgrade your home office set up, or just want a quality printer for around the house, look no further than the BROTHER MB2720. This device can print, scan, copy and fax documents in both color and black and white, and has automatic two-way printing to help reduce paper waste and printing costs. Using a 3-inch touchscreen, you can set up a maximum of four user profiles to quickly access customized settings. Brother MB2720 has a monthly cycle of up to 20,000 pages, which allows you to solve everything from exchange documents to expense reports. With built-in Wi-Fi, you can wirelessly print from mobile devices; Perfect for when you don't have access to your computer. What we like about the one year warranty NFC card is the Security Reader High Yield Toner Cartridges That we don't like writing the size of the print is just one feature No Low Toner redefine Brother Business HL-L8360CDW is another great choice for those who want to upgrade their office or home printer. This laser printer is capable of producing up to 33 pages per minute in both color and black and white, allowing you to quickly tackle large print work by showing automatic two-way printing to help reduce printing costs and reduce paper waste. Toner cartridges can produce up to 6,500 pages before needing to be replaced. The 2.7-inch touchscreen uses intuitive menu options and controls for easy navigation and use. The printer also has a built-in security system using an NFC card reader, so that only authorized users can print, keeping your personal and business information safe. What we like is the Automatic duplex printing SD printing cloud printing card that we don't like the slow speed printing Small paper ink is expensive to replace the Canon Pixma TR8520 is an all-in-one ink printer that is perfect for those who work from home or spend a lot of time in their home office. This model can print, scan, copy, and fax both color and monochrome documents. The five-tone ink system uses individual cartridges for each color, so you only need to replace the ink you need rather than spending money on color combination cartridges. This printer connects to a computer or mobile device WiFi or Bluetooth so you can print directly from your device or from almost any cloud service. There is also an SD card slot to print directly from the memory card. The printer has a 20-page automatic feeder capacity for copying and scanning, so you can take on great paperwork with ease. It also has an automatic two-way print to help help paper waste and keep printing costs low. The compact design makes it great for jobs where space is at a premium or for styling aside when you don't need to. What we like about the one year warranty 32 ppm Amazon Dash recharge available is that we didn't like the Reports of Firmware Reports on Failed Unit Reports About Trouble Connecting WiFi Brother HL-L2350DW monochrome laser printer packs a lot of energy into a small package. This laser printer is designed for home offices and more traditional offices where space is at a premium. Like most other Brother printers, this one offers automatic two-way printing to help with paper waste and printing costs. It also has a 250-page container loading tray, so you can spend more time at work and less time refueling the printer. This printer can produce up to 32 pages per minute, so you can get reports and other important documents where they should be in less time. Brother offers both high and standard cartridges to replace toner so you can keep up with the workload of your office. High-yield cartridges can produce up to 3,000 pages, while standard cartridges give you up to 1200. You can order them directly from your brother or use the Amazon Dash top-up program, so you never run out of ink or toner. What we like about the tubular ink delivery 11 color system Print Studio Pro V included What we do not like the reports of the lack of print chapter Reports on DOA units expensive ink cartridges If you are a professional photographer looking to produce in-house prints for customers or to display work in galleries, check out the Canon imagePROGRAF PRO-1000. This printer is built from scratch with professional photographers in mind. It has a tubular ink delivery system for better color saturation, faster printing speeds, and reduced chances of clogging print heads. The printed head head itself measures 1.28 inches wide to print more with a single pass, further reducing print times. The printer uses 11 colored ink cartridge systems to get more accurate prints of your work. It also has dedicated nozzles and cartridges for matte and glossy black; This allows you to quickly switch between glitter and fine art paper without wasting ink. The printer uses a 17-inch widescreen to produce large photo prints, ideal for gallery displays or large-format prints for customers. Canon offers a copy of the Print Studio Pro V featuring a PROGRAF to allow you to make simple edits and trimmings before printing. What we like is the one year warranty Many options cloud print All-in-one model What we do not like is no low ink to override reports on DOA units Reports on macOS Wireless Printing Problems has become an important feature in office and home situations, and brother certainly delivers. This printer is equipped with built-in wireless communication, so you can type from your computer or mobile devices without being attached to it. You can also print directly from cloud services such as Google Drive and Dropbox. You can your computer and mobile devices through high-speed USB CABLE to print when a wireless connection or WiFi is not available. This device is an all-in-one model, meaning you can not only print but also scan, and copy documents and images as well. The paper tray has a capacity of 100 sheets, making it ideal for home offices and general use. To replace the ink, you can send directly from your brother or set up an Amazon Dash recharge schedule, so you never run out of ink. What we like is the letter and photo printing auto duplex printing document removal reminder That we don't like the reports on wireless issues Press Issues Press reports queuing questions Reports on printing heads leveling issues Sometimes you need to do more than just printed documents, but you also don't need a ton of bells and whistles; that's where the Canon TS5120 comes in. Along with a wired USB connection, this printer can connect to computers and mobile devices via WiFi and Bluetooth when wireless internet is not available. You can print directly from a variety of cloud services such as Airdrop, Google Drive and Dropbox. You can print both standard documents the size of a letter, as well as photos of 4x6 and 5x7. When scanning or copying, this printer has a reminder to delete documents so you don't forget the original in the download tray. It also offers automatic two-way printing to help reduce paper and ink waste. The compact size of this printer is ideal for placing on a desk or a small trolley in a typical home office. What we like zero ink technology connect multiple devices share albums through an app that we don't like is not compatible with laptops or desktop reports device synchronization issues Reports of failed HP Sprocket photo printer batteries is the perfect choice for those who want to start scrapbooking or just want a way to quickly print photos with friends. This printer is the size of a medium smartphone, so you can easily put it in your pocket, bag or purse to take with you to parties or meetings with family and friends. The HP Sprocket app allows you to share customized albums and line photos with filters and borders before printing. Each photo measures 2x3 inches and has a peel and stick back to be placed in scraps, lockers, or moodboards. Sprocket allows you to connect multiple devices simultaneously via Bluetooth, and it has a personalized LED light light so you know who is typing. HP Sprocket uses ink-free technology to print photos, so you never have to worry about replacing cartridges or lubricating The battery is recharged via a USB cable and has a sleep mode to keep power when not in use. What we like is Google Home/Amazon Alexa/Microsoft Cortana Compatible Ink and Paper Monitoring Limitless PhotoPrint What We Don't Like Reports on DOA Unit Reports on Firmware Reports on WiFi WiFi HP Tango X was built for a home professional whose office happens to be wherever they are. When used in the HP Smart Tango X app, you can print, scan and copy documents and photos no matter where you are. This printer can also be connected to Google Home, Microsoft Cortana and Amazon Alexa for voice control. TheTango X allows you to print typical letter documents and legal dimensions, as well as limitless photos. The printer uses the HP Smart app to track the amount of ink and paper and alerts you to when you need to restock. The compact and lightweight design is great for stacking on a table or placing in a bag or backpack to take with you. The printer connects to smartphones, tablets and computers via Bluetooth and two-way WiFi for quick and easy customization. What we like about the budget friendly Compact Design XL Ink cartridge is compatible What we don't like is The Printer Reports Head Issues Reports About DOA Units Reports connectivity problems with the Canon TS202, you don't need to break the bank to have a great printer. This model is designed for students to print out homework and work dates and for typical home use. The Canon TS202 is a single printer function, meaning you can't copy, scan or fax any documents, but it's designed to print documents in high quality. The compact design is great for stacking on a desk or shelf when it's not in use; The rear tray of paper is even folded for a thinner profile. The printer uses a hybrid ink system to create detailed and clear documents and images. You can use standard or Canon XL ink cartridges, allowing you to go longer between refills. This printer is compatible with both Windows and Mac laptops and desktop computers, making it great for roommates with different operating systems. With a price tag that will match almost any budget, this printer is ideal for college students and those who only print random documents like online receipts. Receipt.
